For Monday.

REST AT

Considerable Activity in Transit Feeders--No Sales.

The hog market yesterday ruled weak to five cents lower. It was a rather dull and dragging market through most of the day, owing, however, to the light run of hogs up till late in the afternoon, and also to the inferior quality of the offer-The wagon trade was fairly good, little over a hundred animals coming in from this source. This, however, was all done some time before noon. The trade directed up upon receipt of several wars toward the end of the day, and includes and sellers did not in ev-instance get together at once, yet at close all the hogs received were sold the pens empty. Though it was again ellining smarket, the demand was fair-of, the best stuff selling after some lancy, the best prices warrantable be-There was a general weakness e ive pits of trade, provisions taking a slump in sympathy with or-cent break in wheat, later selling rifle. The live stock markets every-broke from 6 to 16 cents, the Wichmarket sustaining strength the best my reported. On the opening, and in thome sales recorded later in the ware about steady with Saturday's rang. Later reports, however, being rish from other live stock centers, this market weakened, and the last sales of the day were a strong 5 lower. The qualwas poor and unattractive, only about is load of the day being at all extra of this readily took the top of \$1.65, count above the next nearest price on a fist. The bulk was within a ten-nt range and this took in practically of the car lots save the top. Though average weight was above Saturday I Friday, which dates, however, were rmally low, it was below Monday of week, and as a matter of fact the load, which was made up of heavy liers and averaged nearly 200 pounds, y materially brought up the average of rest which otherwise would have in thin. The leads which sold ran d, and light lights, and cunty pigs thickly sprinkled throughout about loads received. Several sales were on separate lots of the one car, the of the load going for local consump-ind like cut-outs and sorts to spec-re. Two bunches of 14 and 12, weighpentively 155 and 156 pounds, went prices. There was a smattering by sows and coarse stags also run in with otherwise fair loads. The ners are piling into market any and ell amas of stuff to get it out of the way for harvest, intending when the regular summer run commences, to feed better firmer slock and improve the grad er, and for the past week ar ten day there has been a glut of thin and light hers, and not enough desirable, pretty hers, to offset this mess and raise the tone the general offerings. It is expecte shippers and dealers that a market provement will indicate the tone of th secupts from after harvest. The tailings and clean-ups have about all roached market clearing the feeding pens of the low grade stock and preparing the way for a better class of stock hogs to breed and fatten. Yesterday was only a sample

perted 5 to 10 cents lower. Provisions opened weak and slumped off, but Cudahy and other large interests bought freely on the decline, with the result that prices egained their early loss, and closed, ribs Scenis up and hard The cents up. Compari-sons on the local market are as follows: For last week, Monday: Tops, \$1.90, bulk average weight, 28; receipts, 38; of sales, \$1.7000.50; average weight, 237; GENERAL NOTES

rehers. Dold was the sale buyer

the best of the car bogs, the cut-outs and ships going to outside parties for ship-ment. This market was less weak than

day, and the closing bulletin was "pack

The best sheep were is cents.

SHIPPERS AND NOTES

Quality Poor, Receipts Fair Andy Horner, of the firm of Horner & Kirk of Kingman, and Mr. Horner's son Merton were on the market with a car of hogs. They are old-time shippers and have had in at these yards a large amount of stock this season. He says there is no appreciable falling off in hogs from his county as yet, that more come in as

his county as yet, that more come in as fast as shipped out. They average about two cars a week all the time.

C. F. Quigley of Medford was present with a car of lights. He is anextensive cattle dealer in that part of the territory. He says shipping hogs are not so plentiful from there just now, that heretofore he has averaged about two cars a week, and now only one can be obtained. Wheat harvest has commenced there, and on his way in he saw several fields in shock. There will be more of it, he says, than last year.

C. G. Handy of Norwich was on the C. G. Handy of Korwich was on the market with a car load of mediums, sold to Dold. He reports not many far hogs left in his part of the country, that farmers are fast getting rid of them be-fore harvest, and this he accounts for the glut of thin and light hogs. Stock hogs, he says, are plenty and a good crop com-ing in, and he looks for a god supply

I. M. Horton, of the old-time firm of Campbell & Horton, of Caldwell, was at he yards with the top load for the day, a fine load of 19 282-pound hogs, selling without dock or cut-out. His firm are among the heavy shippers from southern Kansas, and have sent up a large quantity of hogs this season, and yet he says the country is full of them and he believes always will be, so long as corn is plenty However, he declares that his section is suffering from a proponderance of inferior hogs, and this year this condition is worse than last year. It was always possible to get good hogs until this year, and his firm nearly always topped the market when in. But the unusual run of lights this year has made it difficult to secure toppy load, and then only by culling out the best of several loads, the latter grade of which he always sends to this market and the tailings somewhere else, as he long since realized that such grades are poor property on this market. He says: "I have been a constant and regular shipper to this market since it was started, and take it one year with another, I find it the very best market anywhere. I inariably do the best here and have tried all of them. Our firm have shipping sta-tions at Deer Creek, Renfrow and Caldwell. We buy the best the country affords and ship them all up to our sorting pens at Caldwell. There we carefully sort out and manage to get one prime load out of all of them. This we always send to the Wichita market, the tall code and poor stock to some other points where they may be absorbed. I am in a position to judge, from long experience here, and unhesitatingly declare that for convenience, promptness, reliable markets and uniformly good high prices, I am con-vinced there is no better market, in fact one so good." He reports wheat barves

fair load of mediums, sold to Dold for next to top price for the day. Seymour Clark of Benton was a shipper of medium light hogs on the early

mising condition save, perhaps, apri-

markets.

C. Figge of Nashville was a shipper of light hogs on the late market, George Kennoyer of Leon, and D. M. Huichinson of Haverbill, were late ar-rivals with hogs of light and light mediams, both sold to Dold.

Frank G. Steek of Kansas City was a visitor at the yards yesterday shaking rands with old friends. Mr. Steek was company, and later of the firm of Steck & Pinn. He was the hog buyer for Dold when the plant first opened.

M. H. Hudolph, agent for the Frisco, and fatten. Yesterday was only a sample of the prevailing condition for several. There is a heavy movement of feeders days back; light, thin, grassy and soft through here of late. On Sunday 14 cars hogs colored up the entire day's receipts, were received at the yards in transit, and and these are just such grades as no one wants very had, especially packers and feeders from Texas were yarded yesterday and after feed and rest re-shipped to

cars of packing house products to Texas

any of the principal receiving points with and Ruffalo.
The receipts beavier than for Saturday or Mr. Gibbons, of the shipping firm of tast week, Mouday, at this point. Kan-sus City reported 7,409 hogs received, egainst 8,000 on Saturday and 12,000 Fri-trains.

The roads contributing to yesterday's ers and shippers took hold of hors vory receipts were as follows: Santa Pe. 4; sparingly, and prices 5 to be lower." Chi-cago had estimated 20,000 hors and receiving the following the control of the control of the cago had estimated 20,000 hors and receiving the cago had been capable as a ed E.Sch. The report from there was, Packers made up their minds that prices and out and the Santa Fe the 21 cars. for hogs were to go still lower and there. REVIEW OF LAST WEEK'S LOCAL MARKET.

For Monday: Tops, \$130; bulk of sales, \$130250; average weight, \$27; receipts, \$25. For Theaday: Tops, \$170; bulk of sales, \$2.60(3.51); average weight, 521; receipts, 1.25. For Wednesday: Tops, \$1.70; bulk of sales, \$2.50(1.51); average weight, 522; receipts, 1.68. For Thursday: Tops, \$1.80; bulk of sales, \$2.60(5.5); average weight, 520; receipts, \$22.
